

Divya Kalia

Full Stack Java Developer

+91-7696480503 | divyaakalia@gmail.com | Hoshiarpur, Punjab, India

[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL PROFILE

Motivated 1st-year MCA student at Panjab University specializing in full-stack and backend development with Java, Spring Boot, and React. Strong foundation in Data Structures & Algorithms, Object-Oriented Programming, and Analysis & Design of Algorithms (ADA), applied through multiple full-stack and Core Java projects. Analytical problem-solver focused on building scalable, well-architected applications.

TECHNICAL SKILLS

Languages: Java, Python, C, C++, JavaScript (ES6+)

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Chart.js / Recharts

Backend: Spring Boot, Spring Security, RESTful API Design

Databases: MySQL, SQL, Query Optimization

Tools & Platforms: Git, GitHub, VS Code, IntelliJ IDEA, Postman

Core Concepts: Data Structures & Algorithms, OOP, CRUD Operations, JWT Authentication, Responsive Design

Soft Skills: Work Ethic, Leadership, Teamwork & Collaboration, Attention to Detail, Creativity

PROJECTS

ShopFlow — E-commerce Platform | *React, JavaScript, Spring Boot, REST API, Spring Security*

Live: [shopflowsite.netlify.app](#)

- Developed a full-stack e-commerce platform with a dual-dashboard system for real-time product and order management, enabling admins to manage inventory/orders and customers to browse, shop, and track orders live.
- Built the frontend with React + Vite and the backend with Spring Boot + Spring Security, implementing secure REST APIs and a scalable architecture to support real-time updates.

Study Planner | *HTML, CSS, JavaScript, Vite*

Live: [studiess.netlify.app](#)

- Built a lightweight student portal with vanilla JavaScript and Vite, featuring a glassmorphism UI, responsive grid layout, and sidebar dashboard to manage study schedules and track goals.
- Implemented login validation, subject-wise weekly study goals, a drag-and-drop timetable planner, a study focus timer, and goal tracking based on scheduled hours.

Hotel Reservation System — Core Java | *Core Java, File I/O, OOP*

- Built a console application in Core Java to manage the complete hotel workflow, covering room booking, guest check-in/check-out, billing, and invoice generation.
- Implemented dual file I/O strategies: binary object serialization (.dat files) for persistent data storage across sessions, and PrintWriter/FileWriter for generating human-readable invoice receipts, applying core OOP design principles.

Personal Portfolio | *React, JavaScript, Firebase*

Live: [diivyaportfolio.netlify.app](#)

- Designed and developed a personal portfolio website to showcase full-stack and Core Java projects, each linked to live demos for direct interaction and evaluation.
- Integrated a "Hire Me" modal enabling recruiters to instantly access and download the resume, improving accessibility and streamlining the hiring inquiry process.

EDUCATION

Panjab University, Chandigarh

Master of Computer Applications (MCA) — 2025–2027

Bachelor of Computer Applications (BCA) — 2022–2025
